ABSTRACT

This annotated guide lists periodicals in the fields of sociology, anthropology, social work and related sciences which are on file as of 1971 in the Lincoln Memorial Library at South Dakota State University. A project of the Intermediate Sociology Class, fall semester, 1971, the guide is intended as a research tool for undergraduate and graduate students majoring in the social sciences. The guide is divided into two sections. Part 1 contains an alphabetized listing of those periodicals whose subject matter is directly related to sociology, anthropology and social work. Part II contains an alphabetized listing of those periodicals related to the above three fields. The following information is provided for each periodical: title, library call number, issues on file, publisher, disciplines covered, frequency of publication, focus of publication, representative table of contents, indexing information, and a very brief history. INTRODUCTION

The students in the Intermediate Sociology class, Fall Semester, 1971, decided that a worthwhile class project would be to up-date the 1964 "A Guide to Periodical Publications in Sociology and Related Disciplines", in view of the fact that there had been a significant increase in University Library periodical acquisitions since 1964. The students believed that an up-to-date annotated guide to periodical literature in the field of Sociology and related sciences would be a useful research tool for undergraduate and graduate students majoring in the social sciences, and, more particularly in the field of Sociology. The class felt that a much wider appreciation and use of periodical literature would be achieved if students could be acquainted with the rich storehouse of such material available to them on campus. In order to make the guide especially useful at South Dakota State University, only periodicals currently on file in Lincoln Memorial Library are listed.

The guide is divided into two sections. Part I contains an alphabetized listing of those periodicals which in subject matter are more directly related to the field of Sociology, Anthropology and Social Work. Part II contains an alphabetized listing of those periodicals in fields less directly related to Sociology, Anthropology, and Social Work, but include materials that contribute to the subject matter of the above three fields.

Titles of the periodicals appearing in the "guide" are alphabetized under their last or most recent title. The guide is organized in such a way that the reader can tell at a glance whether the file on each periodical is complete, current, or suspended. If the file is incomplete, the missing issues or volumes are readily identified by the use of the scheme shown and explained in the example below.

Example:

Title: CURRENT SOCIOLOGY
Library Call No.: 016.305; C 93
Issues on File in Library: (1 - (12) + 1952+)

Explanation:

The Lincoln Memorial Library has the periodical CURRENT SOCIOLOGY from volume one, 1952, to date. Volume twelve, however, is not complete. Volume one began in 1952.
